(Months)

Section 2 - Proposal summary

Plain English summary (350 words max)

Provide a summary of this proposal, including key goals, for a non-expert audience. We may use it to describe your work on our website and elsewhere (we publish summary details of all our awards). If your application is successful, this summary will be automatically uploaded, without editing, to our website. Take care not to include anything confidential or commercially sensitive.

Category of work Drop down menu options are: Building, capital; Clinical trials phase 0-1; Clinical trial phase 2-4; Clinical trial post phase 4; Discovery science; Education, training; Equipment, resource; Feasibility, pilot trial, natural history studies; Patients, public; Service improvement; Staff; Technology, devices; Treatment evaluation, management.

Primary focus area

Drop down menu options are: Genetics; Genomic discovery and therapeutics, Artificial intelligence; Imaging; Translational data science/informatics; Cell and gene therapies; Digital innovation; EDI widening participation.

Secondary focus area

Drop down menu as previous.

Resubmission

Yes/No

Resubmission detail

If yes, provide details of how this application is different.

Section 3 - Proposal details

Aims

Aims are broad statements of desired outcomes, or the general intentions of the activity, which 'paint a picture' of your project. Emphasise what is to be accomplished (not how it is to be accomplished)

100 words max

Objectives

Objectives are the steps you are going to take to answer your questions or a specific list of tasks needed to accomplish the goals of the proposal. Emphasise how aims are to be accomplished.

100 words max

Innovative aspects

What, if any, aspects of this proposal do you regard as innovative? 300 words max

Innovation and improvement phase

Currently held (open and active) grants

Provide details on your currently held (open and active) grants. Please include the funder name, project title, amount of support provided, project dates.

Previously held grants

Provide details on previously held grants which you consider most significant or relevant to this application.

ORCID ID number

Number

Publications

Provide details of up to three of your publications, which you consider the most significant or relevant to the application. Please use Harvard referencing (or similar referencing format) and highlight your name within the list of authors by labelling with an asterisk (*).

Additional publications

Provide up to ten additional publications you want to highlight. Please use Harvard referencing (or similar referencing format)

Career breaks

Have you taken any career breaks which you wish to be taken into consideration? This can include periods of parental or long-term sick leave, caring responsibilities, secondments, time spent in clinical training or periods where you were unable to work because of the COVID-19 pandemic. Please note answers will be viewed by panel members and peer reviewers, so please do not name third-party individuals or include anything which might identify the third party. (free text)

Section 7 - Research involving animals

Does the proposal involve the use of animals?

☒ Yes/No

Section 8 - Human participants, biological material / data

Human participants, biological material/data. Does your proposal involve any of the following

☒ Only human participants / Only human biological material or identifiable or potentially identifiable data / Involves both human participants and human biological material or identifiable data / None.

NHS Facilities

☒ Yes / No
